

Precautionary measures to prevent the spread of infections in guest rooms

The safety of our guests against the Corona Virus (Covid-19) is our top priority for us.

To prevent the spread of infections,our precautionary measures have been strengthened in accordance with “The guideline for preventing the spread of new corona virus infectious diseases in Hotel Industry” by Japan Hotel Association.

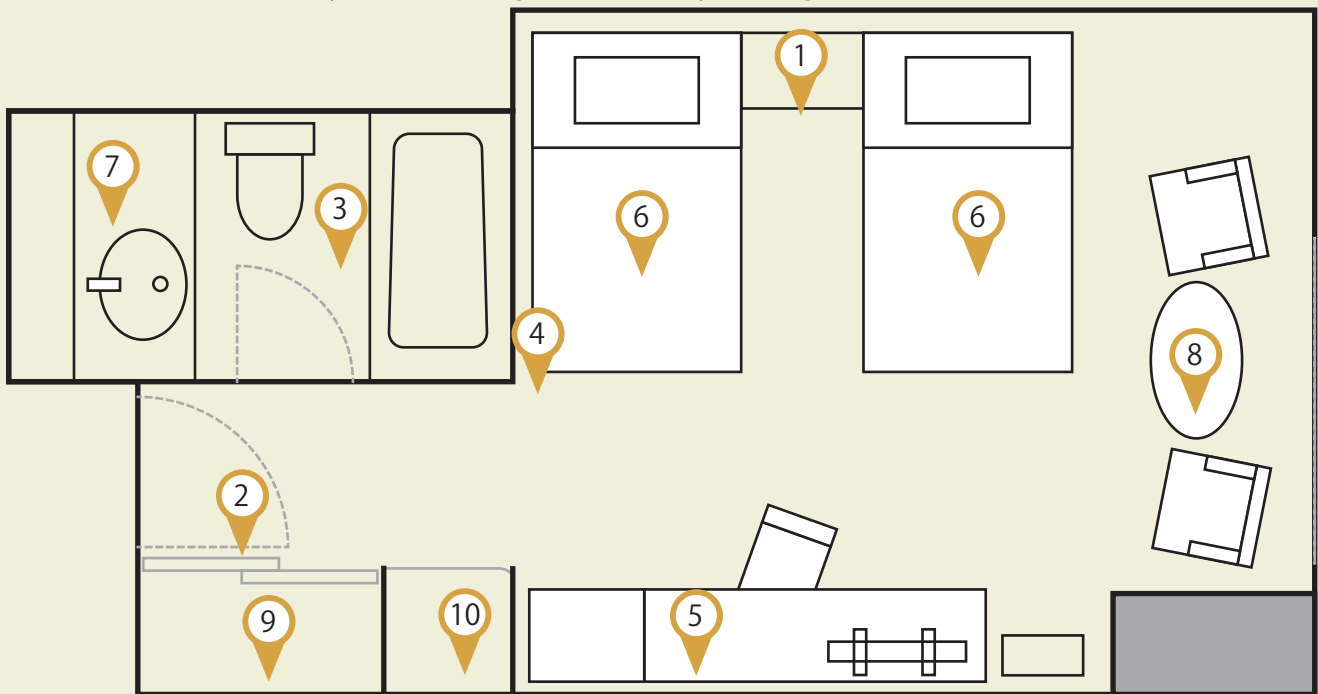

In addition to the usual room cleaning, we implement to special room cleaning and disinfection of areas frequently touched according to our new standard to let our guest stay safe and without stress.

①Deodorize and sterilize the entire guest room

*The ozone mist has effects to sterilize and inactivate the virus. We spray it to the entire room with the device.

②Disinfect areas frequently touched in guest room by wiping with disinfectants
